Leg Spacer / Thigh Pillow

Between thighs or knees to reduce pressure points, align the spine

Helps prevent pressure ulcers, helps align the spine & alleviate tension to the back.

Helps treat and alleviate back pain by

- Encouraging the natural alignment of the pelvis and spine when resting.
- Encourages the user to sleep in the preferred side sleeping position .
- Inhibites spinal twisting during sleep.

Helps treat and prevent pressure ulcers by

- Cushions and diffuses pressure while protecting the knees from each other.
- Prevent the patient's knees rubbing together when lying in bed.

Improves patient comfort by

- Improving posture & promoting sound sleep.
- Adjustable strap closure means a comfortable custom fit.

Super–soft Memoryfoam surface, combined with premium–grade foam base.
